

Our Puppy Pre School

Socialisation is a vital part of a puppy's life and the experiences they encounter in the first few weeks of life are the starting point of a happy, obedient and well adjusted dog.

The emphasis is on your puppy having a calm, positive experience and for this reason the numbers are limited.

Please ask for Emma to ensure you reserve your place.

The class is held at the surgery, on a Monday evening 7.30-8.30pm

We will discuss how your puppy learns and demonstrate how to teach your puppy in a positive and effective way.

We will help with any problems you may have with toilet training, play biting, jumping up, walking on the lead etc.

Your puppy will begin to learn how to read other puppies' body language and experience controlled but enjoyable play.

- **The cost of the class is £6**
- **Your puppy should be 12 - 20 weeks of age**
- **It must will have completed it's vaccination course and be fit and well**
- **Children are very welcome**
- **We offer advice on quality toys and training aids**

We look forward to seeing you there 😊
